

READY PUR™

Now you can be prepared for any disaster or services shut-down with Water Revolution's ReadyPur™ Emergency Wellness Filter System!

"You take a large city like Los Angeles, New York, Chicago – their water supply comes from hundreds of miles away and any interruption of that, or food, or power for any period of time and you're going to have riots in the streets. Our society is so fragile, so dependent on the interworking of things to provide us with goods and services ..." *-Gene Roddenberry*

Great for everyday use or stored as part of your emergency preparedness plan (or both); the ReadyPur™ will filter water from a stream, pond, swimming pool, street, well, in addition to collected rainwater, or even regular tap water.

Everyone Needs a ReadyPur™ System
